My name is Andrijana Golob and I am 51 years old. I am a teacher but I don't work as teacher for quite some time. I studied tourism and after eight years of working in that branch, I changed my job. I spent 14 years in financial department in an enterprise of electrical industry. I was a shop steward there for 12 years. Last 2 years I have been a secretary of Ljubljana region for Trade Union of the Metal and Electrical Industry Workers (SKEI). That is the largest region in Slovenia.

In 1994, women in our trade union established Women's Committee and I was its president for 8 years. Now, I am the vice president of The Board for Equal Opportunities on the level of The Association of Free Trade Unions of Slovenia.
