Figure 1: State Tax Effort Per FTE for All Higher Education, 2000-2001
Figure 2: State Tax Effort Per FTE for Public Four-Year Universities, 2000-2001
Figure 3: State Tax Effort Per FTE for Public Two-Year Institutions

Fiscal Capacity (Per Capita Income)

Total State $ Per FTE

$0  $2,500  $5,000  $7,500  $10,000

$20,000  $25,000  $30,000  $35,000  $40,000
Figure 4: State Tax Effort Per FTE for Private Four-Year Institutions

The graph shows the relationship between fiscal capacity (per capita income) and total state dollars per FTE for private four-year institutions across various states. The data points are color-coded to represent different states, such as New Jersey (NJ), New York (NY), Maryland (MD), and others. The graph includes a scale for fiscal capacity ranging from $0 to $40,000, with increments of $5,000. The total state dollars per FTE range from $0 to $2,500, with increments of $500. The states are marked with abbreviations, such as AL for Alabama, CA for California, and so on.
